10.3.22

CELL PHONE POLICY

HANDS-FREE IS THE WAY TO BE.

Hands-on cell phone usage while driving, operating equipment, or in any situation where they can cause accidents is prohibited. Handsfree use of a cell phone is allowed provided it does not distract employee-owners from safely operating a vehicle or equipment.

Activities that require hands-on use of a cell phone while operating a vehicle or equipment are prohibited in all instances.

Drivers who operate a CDL vehicle are required to follow the **Vehicle Use Policy**, which conforms to the FMCSA guidelines.
